

# EVI<sup>®</sup> DIGITAL

*Banner & Mesh.*

Any weave. Any thickness. From 100 rolls.

■ Direct distribution    ■ Regional reach    □ Not yet covered

# Three stock families.

*Always in stock from the regional warehouses.*

01 · STOCK

## Frontlit

440 g/m<sup>2</sup>

Standard front-lit PVC banner for outdoor and indoor signage. Engineered for high colour density and weld stability. Smooth matte print surface for predictable ink transfer.

STOCK

Widths: 1.07 · 1.27 · 1.37 · 1.52 · 2.20 · 3.20 m  
Lengths: 30 m · 50 m roll

02 · STOCK

## Backlit

510 g/m<sup>2</sup>

High-translucency banner for lightboxes and backlit installations. Optimised for even light diffusion with minimal hotspots. Enhanced ink-holding for saturated transmitted colour.

STOCK

Widths: 1.07 · 1.37 · 1.52 · 2.20 m  
Lengths: 30 m · 50 m roll

03 · STOCK

## Mesh

270 g/m<sup>2</sup>

Open-weave PVC mesh for high-wind exterior applications — building wraps, fencing, scaffolding. EVICORE® weave for tension stability under grommet loads. Standard 70/30 perforation.

STOCK

Widths: 1.07 · 1.52 · 2.20 · 3.20 m  
Lengths: 30 m · 50 m roll

CUSTOM-ORDER PROGRAMME · FROM 100 ROLLS

# Any weave. Any thickness.

*From 100 rolls.*

Beyond the standard stock items, EVI DIGITAL produces banner and mesh media to order from a 100-roll minimum. Specify weave, thickness, finish and width – full private-label options available for distributors.

## WEAVE

Frontlit · Backlit · Mesh · Blockout · Blackout · Scrim · Coated · Reinforced

## THICKNESS

250 to 680 g/m<sup>2</sup> · Custom densities on request

## FINISH

Matte · Satin · Gloss · Coated one-side / both sides

## WIDTH

0.91 m to 3.20 m · Custom widths to 5.00 m for special orders

## LENGTH

Standard 30/50 m · Custom roll lengths to 100 m

## REINFORCEMENT

Standard PVC · Polyester scrim · Aramid-reinforced edges

## LEAD TIME

14 to 21 days from order confirmation

## MIN ORDER

100 rolls per spec · 1,000 rolls for full private label

**Request a custom specification: [sales@evidigital.com](mailto:sales@evidigital.com)**

Send your spec sheet (weave, g/m<sup>2</sup>, width, length, finish, quantity) for pricing and lead-time.

PRIVATE-LABEL PROGRAMME

# Your brand.

## *Our engineering.*

For established distributors, EVI DIGITAL offers full private-label production – your brand on cartons, core labels, packaging and shipping documents. Minimum 1,000 rolls for full private-label runs.

### WHAT'S INCLUDED

- Custom carton printing in your brand colours and logos
- Custom core labels with your part numbers and barcodes
- Custom roll wrap printing (optional)
- Shipping documents (invoices, packing lists) on your letterhead
- Your distributor address on the EVI HOLDING export certificate
- Dedicated SKU codes traceable to your inventory system
- Co-branded technical data sheets and ICC profile packages

EVI DIGITAL warehouse – order fulfilment with palletised dispatch

EVI® PROPRIETARY TECHNOLOGIES FOR BANNER

# Built for tension.

*Built for weather.*

TEXTILE WEAVE

## EVICORE®

Reinforced banner and mesh weave engineered for tension stability under weld, grommet and wind loads. The structural backbone of every EVI DIGITAL banner product.

COATING CONTROL

## EVIFLOW®

Precision multilayer surface coating for uniform ink wetting, smooth gradients and consistent colour reproduction across the full roll width.

UV SHIELD

## EVIGUARD®

Enhanced UV-protection for long-term outdoor exposure. Protects pigments and the PVC matrix from degradation in direct sunlight.

OPACITY LAYER

## EVIBLACK®

High-opacity backing layer for show-through prevention on backlit banner. Black-back configurations available for outdoor blackout applications.

QUALITY CONTROL

## 100% batch print-testing · ISO 9001 · ISO 14001

Every production batch is print-tested on the Roland EU-1000MF UV reference printer before release. ICC profiles for the major printer/RIP combinations are available on request through your regional distributor.

INDUSTRIAL-SCALE SUPPLY

# Palletised. Ship-ready.

Standard banner palletisation: 30 rolls per pallet, stretch-wrapped, with EUR-pallet base. Pallet weight approximately 540 kg for 440 g/m<sup>2</sup> frontlit, 50 m rolls. Custom palletisation available on request.

## Single banner pallet

30 rolls · stretch-wrapped · stock palletisation

## Warehouse staging

Multiple pyramids ready for regional dispatch

## APPLICATIONS

# Where EVI DIGITAL banner installs.

*From short-run promo to permanent outdoor.*

## 01 Outdoor advertising

Billboards, hoardings, building wraps, façade graphics. EVIGUARD® UV-shield delivers 3+ years of outdoor service on frontlit and mesh.

## 02 Retail signage

Shop fronts, in-store campaigns, seasonal POP. Frontlit 440 g/m<sup>2</sup> is the standard choice for retail.

## 03 Event & exhibition

Trade shows, sports venues, conferences. Lightweight mesh for windy outdoor venues, backlit for indoor exhibition lightboxes.

## 04 Construction

Scaffolding nets, site hoardings, project signage. Mesh 270 g/m<sup>2</sup> with reinforced edges for high-wind exposure.

## 05 Vehicle & fleet

Commercial vehicle branding, bus stops, transit advertising. Coated frontlit for direct mounting; mesh for partial vehicle wraps.

## 06 Lightbox & displays

Retail lightboxes, indoor backlit displays, advertising columns. Backlit 510 g/m<sup>2</sup> for even light diffusion.
