# Three coordinated tiers.

*Choose by durability window and use profile.*

01 · ESSENTIAL SERIES

## EVI MONO™

Warranty up to 2 years

Monomeric printable vinyl engineered for stable everyday printing applications. Built for short-term advertising, indoor graphics, temporary campaigns, promo graphics and economic signage.

02 · PROFESSIONAL SERIES

## EVI POLY™

Warranty up to 4 years

Polymeric printable vinyl with enhanced dimensional stability and professional adhesive performance. For medium-term outdoor, retail branding, wall graphics, fleet graphics and shop windows.

03 · ADVANCED PERFORMANCE

## EVI PRO™

Warranty up to 6 years

Advanced printable media for higher stability, stronger outdoor durability and premium installation performance. For demanding outdoor, complex surfaces, premium retail branding and partial vehicle graphics.

ESSENTIAL SERIES · WARRANTY UP TO 2 YEARS

# EVI MONO™

*Monomeric printable vinyl · Eco-solvent · Latex · UV*

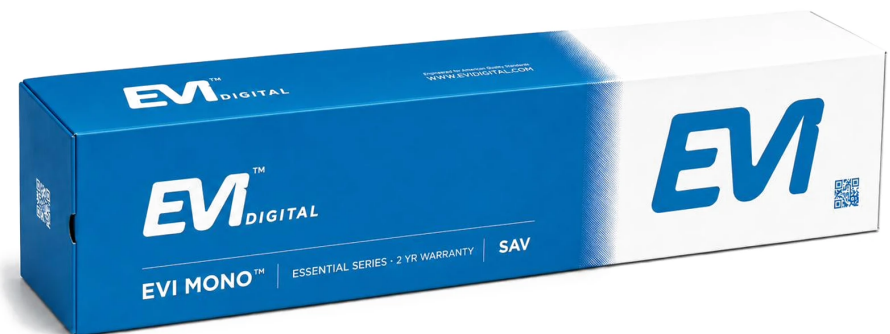

EVI MONO™ is the entry tier of the EVI DIGITAL self-adhesive vinyl family – a reliable monomeric printable film designed for stable everyday printing. Engineered for short campaigns where colour density, clean cutting and predictable installation matter more than long-term outdoor durability.

## USE CASES

- Short-term advertising – promotional graphics, event signage
- Indoor graphics – exhibitions, retail displays, information panels
- Temporary campaigns – seasonal POS, launch events
- Promo graphics – vehicle short-term branding (≤ 12 months)
- Economic signage – POP, way-finding, internal communications

## COMPARES WITH

- Orajet 3164
- Avery MPI 3000
- Metamark MDP

PROFESSIONAL SERIES · WARRANTY UP TO 4 YEARS

# EVI POLY™

*Polymeric printable vinyl · Eco-solvent · Latex · UV*

EVI POLY™ is the workhorse polymeric tier – enhanced dimensional stability, professional adhesive performance and clean removability after extended service. The standard choice for medium-term outdoor applications where reliability and predictable removal are required.

## USE CASES

- Medium-term outdoor – façade graphics, building wraps
- Retail branding – shop fronts, in-store campaigns
- Wall graphics – interior and exterior environmental
- Fleet graphics – commercial vehicles, light branding
- Shop windows – perforated and full-coverage installations
- Professional signage – way-finding, regulatory, ADA

## BUILT WITH

- EVISTABLE® – calendaring stability, anti-shrinkage
- EVIAIR® – micro-channel air-release adhesive

ADVANCED PERFORMANCE · WARRANTY UP TO 6 YEARS

# EVI PRO™

*Advanced printable media · Eco-solvent · Latex · UV*

EVI PRO™ is the top-tier vinyl — engineered for the most demanding outdoor graphics where conformability, long-term colour stability and resistance to weathering are critical. Built for complex curved surfaces, premium retail branding and partial vehicle wraps.

## USE CASES

- Demanding outdoor graphics — long-term billboards, building wraps
- Complex surfaces — curved retail displays, equipment graphics
- Premium retail branding — flagship store fronts, luxury brand signage
- Long-term commercial graphics — multi-year fixed installations
- Partial vehicle graphics — fleet branding, light wraps, accents

## BUILT WITH

- EVIGUARD® — enhanced UV-shield for long-term outdoor
- EVIFLOW® — precision multilayer coating for colour stability
- EVIAIR® Pro — premium-grade air-release adhesive matrix

# Built for every workflow.

*Compatible with all major wide-format printing technologies.*

Uniform ink wetting, smooth  
gradients

DIMENSIONAL LAYER

## EVISTABLE®

Anti-shrinkage and anti-curl  
stability

MICROVENT

## EVIAIR®

Bubble-free installation

OPACITY LAYER

## EVIBLACK®

Show-through prevention on dark  
surfaces

INSIDE EVERY BOX

## Traceable. Protected. Ready to print.

Every roll arrives labelled with batch number, weight and lot ID. The printable face is protected by a silicone release liner and the core is wrapped in barrier paper to prevent edge contamination during transit. Standard widths from 1.07 m to 1.52 m, lengths 50 m or 100 m. Custom widths available on request from 200 rolls.

READY TO SHIP

# Palletised.

## *Engineered to arrive.*

Standard widths 1.07 m to 1.52 m, in 50 m or 100 m rolls. Each pallet ships batch-traced, barrier-wrapped and ready for the print floor.
